São Paulo, 24 June 2022

Dear friends and collaborators of all the work carried out at Rancho do Senhor, we want to thank you for the support we have received from you over all these years. Be assured that it is of great importance to our project.

Once again, with your support, we were able to fulfill dreams that we had for our beneficiaries and that, unfortunately, our financial situation did not allow us to fulfill.

We made a good purchase of food that will last a few months. We replaced our water fountain, which was old and cost us a lot of maintenance, for a new and modern one. We were able to buy several games and toys for our children. Where there was only an old house, today there are several toys, and all this with your support.

With the amount that you collected and sent to us, we were able to fix the PABX (Private Automatic Branch Exchange) of our telephone system, which was broken and we did not have the resources to fix it.

Thank you so much for all the help so far.

Knowing that we can count on people who make efforts to support us, even if they have not met us and our beneficiaries, makes the journey worthwhile.

God bless you!

With gratitude,

*Josiany Dutra
(Captain)
Director of Social Unit
(The Salvation Army)
(Rancho do Senhor Mother Care Centre – Brazil)*
