## Practical Information

### Up start/collection from SFO

When school is over, we go into all the classrooms and check the children into SFO.

When the children leave it is important that you let the staff know that they are collected. The staff need to be notified if a third party is collecting the child, or if they are leaving with school mates. Let us know in the morning or send a message with Vigilo, or an SMS by 1:00. You will receive a simple confirmation by SMS.

We only send the children out to the pick-up and drop-off area at the top and bottom of each hour. This applies to children who walk home as well. If your child needs to be collected at another time they must be collected inside.

SFO has access to all the school's special rooms, such as the swimming pool, gym and computer room.

---

*We are outside every day, so it is important to have clothes for all types of weather! And remember to write names in the clothes so they can be identified. An extra change of clothes is good to have so that the children can play more freely. 😊*

In order to make the best arrangement for the children we need to know well in advance whether your child will attend or not. You can sign up by email to the SFO Department Head or by filling out the form handed out.
